Chevron overturned!

America is coming back! Fck all our goverments made up policys. Including the FBI, CIA, IRS, OSHA, EPA, ATF, IFC, IBC, NFPA ETC.

An example of the governmental utilizing Chervron. Chief Blanchard of APPD as a legal expert according to the city interpreted the IFC "policy" to give him the legal right (in his professional opinion) to invade someone's property regardless of their constitutional right to be protected from unlawful searches and seizures.

If the city request fire inspection without a variable victim to the hazards (crime) they are claiming, tell them to fck off and sue them! This is a huge win for American's and our Constitution!

#AMERICA
#GREAT
#WINNING
